Weekend Challenge Series (5) – full day (8 hour or more) events

NEW for 2015! Increased payout at the ramp and MORE money stays local

Our original Weekend Challenge series has evolved from one Great Lakes division to dozens of divisions in multiple states. A Weekend Challenge Division consists of 5 full day events. Anglers must compete in 4 out of the 5 series to qualify for the state championship and a chance to qualify for a true national championship as well as big dollar cash and prizes, like Ranger boats, equipment and many other things!

By running each division as a local circuit, the anglers enjoy familiar fishing waters, less time on the road, sleep at home and reducing travel costs. Each division has the atmosphere of a local club with the chance to qualify for a state championship.

In fact, many local clubs are affiliating with NBAA to give their members a shot at the "next step" in organized bass fishing and becoming a true State or National CHAMPION!

Entry fee breakdown: Entry fees for typical weekend tournaments will be \$100.00 per team, and this includes a \$4.00 Big Bass pot. Of this, \$70.00 of each entry is paid back at the ramp, \$10.00 goes to the director, \$2 goes to **YOUR** state championship fund, and \$14.00 goes to NBAA for admin fees and to the National Championship. That is an INCREASE to record levels of a 74% payback at the ramp and 86% of your money STAYS "local." Also, NEW for 2015, Super Big Bass is FREE!

FAQ's

1. **Are permits needed to run tournaments?** Most public state, county, township and municipal ramps will require a permit to hold special events such as tournaments. Check with the local or regional office (i.e.: regional DNR station, township office, etc) for permit requirements.
2. **Who pays for permits?** Some permits for tournaments require a fee be paid. For some it is a flat fee and some are based on number of boats. When based on number of boats, base it on the lowest number of boats that may participate. The tournament director is responsible for paying ramp permits. Most directors then charge the teams fishing his or her circuit \$1.00 or \$2.00 per tournament until fees are repaid.
3. **Who chooses the lakes and ramps used?** NBAA leaves the choices of ramps and lakes up to the local directors. When choosing a lake, be sure to check local regulations on each body of water. Also, make sure the size of the lake and ramp can accommodate the number of boats that you expect.
4. **When can I run my tournament series?** NBAA lets each local director choose the dates and times for their tournaments. Dates for events must conform to local season and regulations and be completed prior to the championship event.
5. **What hours do I run a tournament?** Overtime events generally run for 12 weeks, 3-4 hours per tournament. One on One events run 5 tournaments typically on the weeknights for 3-4 hours, Weekend events run for 5 tournaments, 8 hours per event. Most Overtime and One on One tournaments run 6 p.m. to 9 p.m., while weekend events run 7 a.m. to 3 p.m. Some directors choose to vary this somewhat to accommodate travel and work times for anglers.
6. **Who qualifies for championships?** All ELIGIBLE directors and ELIGIBLE co-directors automatically qualify to fish the state championship. Other anglers who meet the rule requirements will also qualify for the state championship.
7. **Do directors pay to fish tournaments?** Directors do not pay in to fish their own divisions as long as very low minimum numbers are reached. **They are however required to pay for the optional big bass pot if they participate.** They are required to pay entry fees to participate in any other NBAA tournaments where entry fees are required. Also, directors pay any entry fees charged at championship events.
8. **How are directors compensated?** Directors are paid a set amount per boat, and it depends upon which type of division is set up. Also, directors do not pay to fish their own divisions as long as very low minimum numbers are met and pay no membership fees for NBAA.
9. **Will I be considered an employee of NBAA?** Directors are independent contractors and not employees of NBAA.
10. **How do I keep track of standings for my division?** **Tournament Results** is our official software and allows us to keep accurate, consistent statistics throughout our organization. The software is easy to use and training will be provided whenever needed. It is the director's responsibility to enter results within two day of each event.
11. **How do we handle payback of winnings at the tournaments?** A standardized payback schedule sheet is published on the web and will be provided to each director. This sheet will tell you how many places to pay and how much each place pays depending on number of boats.
12. **How are dispute rules violations and protests handled?** As tournament director, you will be responsible for handling the enforcement of rules at your tournament. It will be your responsibility to be familiar with all rules and to follow the protest procedures provided by NBAA. Disputes and rule violations are very rare, but must be dealt with fairly and consistently when they occur.
