NBAA recommends the use of livewell additives such as G-Juice and Ice, in warmer weather to promote a healthy release of fish into natural habitat. Further NBAA recommends the use of ICE to cool livewell water and improve oxygen levels during "warm water" months. Tournament Director shall have the sole responsibility for determining whether aeration and capacity is "proper and adequate". At the end of the season if there is a tie between two or more teams in equal points, then overall weight of the teams will be the deciding factor.

18. STANDINGS, AWARDS & QUALIFICATIONS:

TEAMS: Teams must be declared at the first event fished in any one division by either member of the team.
